#### Notice

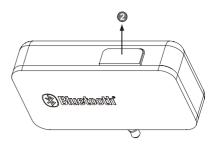

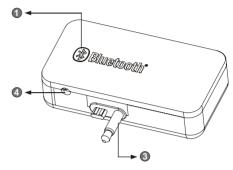

# **Operating Instructions**

- Please charge the device before you use it for the first time. The LED indicator lights up red to indicate that the device is charging, and the LED indicator goes out to indicate the charging is completed.
- Connect the device to an appropriate audio source (various models for different iPod, MP3, PSP and CD Players).
- 3. Press and hold the multifunction button for more than 3 seconds (the LED indicator will flash blue for three times) and then release the button. The LED indicator will flash once per second to indicate Bluetooth is activated successfully.
- 4. Press and hold the multifunction button again (the LED indicator will flash red and blue alternatively) and then release the button to enter searching and pairing mode.
- 5. Have a Bluetooth reception device to be paired with the device, such as Bluetooth speakers or earphones, ready for pairing. Please refer to the product manual of your Bluetooth reception device for how to pair and search.
- 6. It might take longer for the device that is pairing for the first time (approximately for 1 to 2 minutes). Please wait patiently.
- 7. When pairing or searching is completed, the LED indicator will flash blue (4 times every 4 seconds) to indicate the pairing is completed and the audio source can be transferred to the reception device, such as Bluetooth speakers or earphones, through Bluetooth.
- 8. If the pairing or searching fails, please repeat Step 3 to Step 7.
- To turn off the device, press and hold the multifunction button until the LED indicator goes out.

# **Product at a Glance**

- 1. LED indicator (red/blue indicator light): When the LED indicator flashes blue, the power is ON and the device is working. When the LED indicator flashes red and blue alternatively, it indicates that the device is in pairing mode. When the red light is permanently ON, it indicates that the device is charding.
- 2. Multifunction button (power switch/pairing and searching function)
- Audio input port (various models for different iPod, MP3, PSP and CD Players.)
- 4. Power input for lithium battery.

# **Specifications**

- 1. Bluetooth Specification: Bluetooth SIG 1.2 A2DP profile
- 2. Charging Voltage: DC 5V/0.5A
- 3. Internal Battery Type: Chargeable Lithium Battery
- 4. Output Power Class: Class 2
- 5. Built-in Antenna
- 6. Dimensions (W x H x D): 281 mm x 281 mm x 106 mm

# **Package Contents**

- 1. Bluetooth Dongle x 1
- 2. USB Charging Cable x 1
- 3. User Manual x 1
- 4. Warranty x 1
